Overall Comments:
Follow up inspection regarding closure on 11/20/26 for rodent infestation.

During inspection:

-PIC stated that currently, facility will be receiving pest control services twice per week.
-No vermin activity observed after thorough inspection of the facility. Possible entry points (holes/gaps) were sealed by steel wool.

Continue to monitor for vermin activity and follow professional pest control recommendations. Ensure holes and gaps greater than 3/4 of an inch shall be sealed/secured to prevent vermin entry and harborage.
