Overall Comments:

Discussed with director of nutrition services regarding the implementation of time labeling/time marking for potentially hazardous foods stored in hot holding unit. A time column to be added to the temperature log sheet. Potentially hazardous foods time logged shall be served within 4 hours from when removed from temperature control or discard.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **2/11/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
