Measured Observations

Item	Location	Measurement	Comments
Hot water	Kitchen's warewash sink	130.00 Fahrenheit	
Water	Bar's warewash sink	70.00 Fahrenheit	

Overall Comments:

Note:1. This is a follow-up inspection to the routine inspection conducted by Alex and Princess on 12/27/2024. The facility had a sewage backup on the bar's three compartment warewash sink. There was lack of hot water on the three compartment as well. The pipeline below the bar's three compartment sink is now cleared and no backup was observed. However, there is no hot water supply on the bar sinks. The owner is told to have the water heater issue resolved immediately. Until a hot water supply is restored into the bar's hand and warewash sinks, employees must wash hand and any reusable utensils back in the kitchen's hand and warewash sinks.

2. All the other violations cited during yesterday's inspection must also be corrected immediately.

3. The facility serves beer, soda, liquor, and mixed drinks. In regards to food, the facility sells chips and nachos.

4. Since this is a follow-up inspection conducted on the weekend, the owner shall be billed \$645.00.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than 1/11/2025. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
