Overall Comments:

Environmental Health permit for this facility was suspended on 08/14/2026 due to rodent infestation.

This facility received pest control service from Banner Pest Services on 08/14/2026 to target mice/rats. The report noted "no signs of current rodent activity".

At time of this inspection, no live or dead rodents were observed. Rodent droppings noted in the previous health inspection has been removed. Per owner, work surfaces, floor, and racks have been cleaned and sanitized.

Rodent snap traps were set up throughout the facility and all were clear. Monitor traps daily and call pest control service immediately if rodent is found.

Rodent exclusion measures have been completed:

- Hole in the cabinet under the salad bar has been sealed*
- Hole in the dough preparation room has been sealed*
- Hole in the soda syrup closet has been sealed*

This facility normally receives pest control service twice a month. Due to recent rodent activity, services will be increased to once a week for the upcoming month and may be extended if needed. Service agreement was provided.

Health permit to be reinstated. Facility is okay to operate.

Note:

Owner stated there are plans for a remodel of the kitchen, including replacement of exhaust hoods. Ensure plans are submitted to Dept. of Environmental Health for review and approval prior to starting construction. Propose additional storage space so that ice machine, drinks, and supplies can be stored inside the facility rather than the outdoor storage room.

FACILITY RE-OPENED / PERMIT REINSTATED

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **8/29/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
