Overall Comments:

The following was discussed with the operator:

Cooling

After heating or hot holding, Potentially Hazardous Foods (PHFs) shall be cooled rapidly from 135°F to 70°F within 2 hours and from 70°F to 41°F within 4 hours. Approved cooling methods include: 1) Placing the food in shallow pans 2) Separating the food into thinner or smaller portions. 3) Using rapid cooling equipment (Ex. blast chiller) 4) Using containers that facilitate heat transfer (ex. stainless steel) 5) Adding ice as an ingredient. 6) Using ice paddles 7) Using an ice bath and stirring frequently 8) Accordance with a HACCP plan. Cooling foods shall have enough space around the containers for cold air to circulate, be loosely covered, or uncovered and stirred as frequently needed to evenly cool.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **10/28/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
