**Permit condition: Existing water heater is conditionally approved. Failure to maintain a constant supply of hot water at a minimum of 120F will required a future plan check submittal for a new water heater.*

Ventilation problems include, but are not limited to, excess heat in the facility that results in uncomfortable working conditions for employees. The exemption shall not be deemed to supersede any local building and fire code requirements. If a future change of ownership occurs, the new owner shall be made aware of these conditions.

Note- This facility was previously approved to share same location as the Axe and Palm. Shared equipment includes the 3 comp sink, prep sink and ice machine.
