Overall Comments:

This was a follow-up to the 7/23/25 routine inspection.

No cockroaches were observed today. Pest control had placed more sticky traps. Observed facility eliminated gap underneath the kitchen's main door. However, the kitchen screen door still had a vertical gap underneath. Either keep the main door closed at all times, or eliminate the vertical gap underneath the screen door.

OK to operate. Report emailed to facility during inspection.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **8/14/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
