Overall Comments:

The facility was closed yesterday because of cockroach infestation. The corporation also removed all the equipment, the panel, and conducted a thorough cleaning behind the cook line. A pest control company came and conducted an intervention as well. During the time of this inspection, no live or dead cockroach was observed. Therefore, the facility is open for service.

However, a regular thorough cleaning and pest control intervention must be conducted to prevent any future infestation.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **11/29/2024**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
