Overall Comments:

Note: This is a follow-up inspection to the routine inspection that was conducted on 09/02/2026. The school kitchen was closed due to vermin infestation. During today's follow-up inspection, it was verified that a pest control company has conducted multiple interventions and employees of the school have done a thorough cleaning. No live or dead cockroach was observed on the traps or out. Therefore, the kitchen is now open for service.

FACILITY RE-OPENED / PERMIT REINSTATED

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **9/24/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
