Inspector Observations:

Noted strong odor of smoke in the kitchen. Upon investigation, observed that the oven was in-use to reheat foods, but the ventilation hood had not be turned on. Per Michelle, she had had a meeting earlier today and forgotten to turn the hood on.

[CA] Provide approved exhaust hood ventilation over all cooking equipment as required to effectively remove cooking odors, smoke, steam, grease, heat, and vapors.

Ensure ventilation hood is turned on while cooking equipment is in-use.

Inspector Observations:

Observed employee personal food stored directly above food intended for student consumption in the one-door upright cooler at the back of the service line.

[CA] Ensure employee personal food is stored below, separate, and away from food intended for student consumption to prevent possible contamination.
