K49	Permits available	
K58	Placard properly displayed/posted	

Comments and Observations

Major Violations

No major violations were observed during this inspection.

Minor Violations

K11 - 3 Points - Improper reheating procedures for hot holding; 114014, 114016

Inspector Observations: Hot food products delivered cold from the central kitchen are stored on the hot holding unit for couple of hours until they are used instead of reheating them on the food products on the upright turbo chef oven.

[CA] Reheating of food products which shall be kept on the hot holding unit must be done on approved oven to raise the reheating temperature to 165 oF. According to Calcode section 114016 (d), reheating for hot holding shall be done rapidly, and the time the FOOD is between 41°F and 165°F shall not exceed two hours. Please adjust your SOP accordingly.

K47 - 2 Points - Signs not posted; last inspection report not available; 113725.1, 113953.5, 113978, 114381(e)

Inspector Observations: Current Environmental Health permit was not posted on public view.

[CA] The most current Environmental Health permit must be posted on public view at all the time.

Performance-Based Inspection Questions

All responses to PBI questions were satisfactory.

Measured Observations

Item	Location	Measurement	Comments
Nugget and fries	Hot holding unit	138.00 Fahrenheit	
Hot water	Three compartment sink	120.00 Fahrenheit	
Orange chicken	Upright freezer	0.00 Fahrenheit	IR
Milk	Milk cooler	36.00 Fahrenheit	
Cheese	Upright fridge	39.00 Fahrenheit	
Quaternary ammonia	Three compartment sink	200.00 PPM	

Overall Comments:

Note: Food safety manager certificate: Manjeet Saini - 10/10/2029

2. The school receives its food products from the Evergreen School District Central Kitchen, reheat and serve. Any leftover is discarded after shift. According to the employee, hot food products are delivered cold and stored on the hot holding unit for couple of hours until they are used instead of reheating them on the food products on the upright turbo chef oven. Any left over food products are discarded after the shift is over.

3. The two compartment warewash sink is being used for utensil wash, food preparation, and handwashing. To prevent possible contamination, installing a designated handwash station next to the existing two compartment warewash sink is highly recommended.

4. According to USDA, schools serving lunch through the School Lunch program must have a written HACCP plan in place. Please keep a copy in the cafeteria.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **2/6/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
