Facility has been in operation for at least two months.

Observed non-prepackaged foods at facility (including open milk containers and nuts/cookies/dried fruits transferred from bulk packaging.) Permit to be changed to FP77 upon review.

The report was written at the end of the site inspections and signed by the PIC. The PIC must ensure each food facility received a copy of the OIR.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **3/5/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
