Comments and Observations

Major Violations

K09 - 8 Points - Improper cooling methods; 114002, 114002.1

Inspector Observations: Observed potentially hazardous food that measured in the temperature danger zone (broth 52F). Per PIC, the broth was cooked at 5am and started the cooling process at 6:30am. [CA] Ensure PHFs are properly cooled from 135F to 70F within 2 hours and from 70F to 41F within 4 hours. [COS] PIC voluntarily discarded the bucket of broth and stated he usually cools the broth in the freezer but didn't have enough room there today.

Unless otherwise noted by the inspector, all violations are to be corrected no later than **7/30/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
