Comments and Observations

Major Violations

No major violations were observed during this inspection.

Minor Violations

K07 - 3 Points - Improper hot and cold holding temperatures; 11387.1, 113996, 113998, 114037, 114343(a)

Inspector Observations: *Observed potentially hazardous foods that measured in the temperature danger zone located in the walk-in cooler (roast beef sandwich 49F). Per PIC, the sandwiches are on the service line for less than an hour and can be potentially on the service line for 3 different days. [CA] Keep PHFs temperature (135F or above or 41F or below) or time controlled (maximum 4 hours in the temperature danger zone and then must be discarded). Food preparation allows PHFs to be out of temperature control for a maximum of 2 cumulative hours.*

Performance-Based Inspection Questions

Needs Improvement - Proper hot and cold holding temperatures.

Overall Comments:

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **2/24/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
