Overall Comments:

Reinspection for correction of rodent infestation. The droppings have been cleaned up, shelves cleaned and vacuumed. Observed the employees wiping the shelves with sanitizer. The employees were finishing up cleaning the shelves and vacuuming while inspecting. According to the manager he is having a pest control company come to his facility tomorrow. This is the second reinspection. You will receive the bill in the mail for this charged inspection.

The facility may reopen. Continue to clean and monitor the rodent issue. Take effective measures to eliminate the rodents from inside the facility. Protect food and beverage from contamination. Reinspection to follow.

The previous green placard was observed behind a piece of wood between the wood and the window. According to the owner it is not possible to take it out. He covered it with a cardboard beer advertisement and the new green placard was posted.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **12/5/2024**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
