Measured Observations

Item	Location	Measurement	Comments
Chlorine	Mechanical dishwasher	50.00 PPM	
Shell eggs	Walk-in cooler	34.00 Fahrenheit	
Hot water	Three compartment sink	130.00 Fahrenheit	

Overall Comments:

Note: 1. Food safety manager certificate: Robert Pei - 1/12/2028

2. The facility is used as a commissary kitchen to caterers using the kitchen. The owner of the store has its own catering business as well.

3. There is a reduced oxygen packaging machine back in the kitchen area. The manager said it has not been used for a while. If the management decides to use it, a permit must be obtained from the State's Public Health Department (CDPH) Food and Drug Branch (FDB) with a submission of HACCP plan.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **4/29/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
