Overall Comments:

Follow-up inspection to routine inspection conducted by Sukhreet Kaur on 11/07/2025.

Facility completed and returned the facility reopening checklist. A professional pest control service report was provided which stated that cockroach activity no longer exists within facility.

The non-functional 2 door preparation refrigerator (harborage point) was removed from the facility.

All affected areas were cleaned and sanitized.

No evidence of cockroaches observed.

Other major violations noted during the routine inspection remain corrected:

K06 - Employee restroom hand wash sink has paper towels within a dispenser.

K08 - TPHC procedures for time marking for the buffet line discussed.

Facility is reopened and may resume operation.

FACILITY RE-OPENED / PERMIT REINSTATED

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **11/27/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.

Legend:

[CA]	Corrective Action
[COS]	Corrected on Site
[N]	Needs Improvement
[NA]	Not Applicable
