Overall Comments:

This is a follow up inspection for CO0157287 regarding rats in the facility.

Weather strips have been installed at the bottom of the doors leading from the dumpster area outside to this facility thus blocking the gap that was under the doors. This helps deny access to the rats. Since the bottom of the strips is made of rubber monitor for any deterioration over time. You may need to replace with metal strips.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **7/31/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
