Comments and Observations

Major Violations

K07 - 8 Points - Improper hot and cold holding temperatures; 11387.1, 113996, 113998, 114037, 114343(a)

Inspector Observations: Meatballs stored on the steam table were measured at 119 °F.

[CA] All potentially hazardous foods like garlic in oil, cut melons, raw sprouts; cooked foods of plant origin; foods of animal origin and any other food capable of supporting the rapid and progressive growth of infectious or toxigenic microorganisms or the slower growth of Clostridium botulinum shall always be held at 41°F or below or at 135°F or above. Please reheat all precooked food products to 165 oF inside the microwave and keep the hot food products at or above 135 oF on the steam table. However, since the meatball stored on the hot holding unit was reheated more than four hours ago, the content on the bin was voluntarily condemned and destroyed by the manager (COS).

Overall Comments:

Note: Food safety manager certificate: Vikram Singh - 11/03/2026

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **6/19/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
