Overall Comments:

Reinspection of facility after closure due to roaches in the facility. The restaurant may reopen. Continue to clean, sanitize and take effective measures to eliminate the roaches inside the facility. Recommend continuing with weekly pest control service and clean up after each service before reopening. Take effective measures to eliminate harborage of the insects.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than 3/23/2023. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
