Overall Comments:

The purpose of this visit is to conduct a follow-up inspection to verify ongoing compliance as a result of the Notice of Findings-Suspension of Health Permit to Operate issued on 4/8/21.

The bartender was the only employee present at the time. As per employee, the facility was scheduled to close at 8pm. Observed outdoor dining service. Employee stated that burritos were offered on the menu for dinner. At the time of the inspection there were no more burritos available. There were four tables with two to three customers per table. Every table had drinks being consumed by customers.

No indoor operations observed at the time of inspection. The facility was lacking reduced maximum capacity sign.

The facility must continue to comply with the public health orders. Any further violations of the public health orders may lead to further permit suspension or revocation.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **5/14/2021**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
