- No contamination and/or adulteration of food observed during time of inspection.

K23M - Vermin

No cockroach activity (live or dead) was observed during time of inspection.

Observed sealing of cracks and crevices around shelving and other equipment. Continue to seal any cracks and crevices that may exist.

Continue to monitor facility for activity using equipment such as monitoring traps.

Continue to communicate with pest control to conduct service for facility.

Keep facility free of food debris and standing water to prevent continued harborage.

Evaluate all received boxes and food for possible activity. Remove cardboard boxes to limit potential for activity.

Facility has been reopened. Okay to operate.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **9/26/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
