Comments and Observations

Major Violations

K16 - 8 Points - Not in compliance with shell stock tags, condition; 114039-114039.5

Inspector Observations: Shellstock tags not maintained/unavailable for live clams and live mussels. Chef stated that the tags were removed and that they could not locate the tags.

[CA] The identity of the source of shellstock that are sold or served shall be maintained for 90 calendar days from the dates of harvest by using an approved recordkeeping system that keeps the tags or labels in chronological order correlated to the date or dates the shellstock are sold or served.

[COS/SA] Cioppino containing mussels and clams were VC&D. Remaining live shellstock were relocated into the walk-in refrigerator of the North Finishing Kitchen to isolate until tags were located. Clams and mussels were removed as an ingredient in the cioppino.

**** Shellstock tags were located and provided for review.**

Minor Violations

No minor violations were observed during this inspection.

Overall Comments:

A risk factor inspection is an inspection focusing on factors known to directly contribute to causing a foodborne illness. Structural issues and good retail practices are not assessed during this inspection.

An exit interview was conducted with the operator to address the inspection findings. The OIR was issued to e-mail address that was verified onsite.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than 2/22/2026. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
