Overall Comments:

The area outside of the warehouse by the back delivery area is more organized, however, there are still boxes on pallets covered with tarp that can become shelter for rats. These were supposed to be placed in a rodent-proof storage shed. During the inspection the employees began moving the pallets inside the warehouse. Manager plans to store boxes outside in a manner that does not provide shelter for rats.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **11/11/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
