## Comments and Observations

### Major Violations

K09 - 8 Points - Improper cooling methods; 114002, 114002.1

**Inspector Observations:** *Observed sushi rice being cooled in plastic bags inside large covered plastic containers. Per the manager, employees prepare the rice, pack it in plastic bags covered in the container and then store it in the walk in to cool. The rice is portioned the next day in smaller containers to sell on the store.*

**[CA] Potentially Hazardous Foods (PHFs) shall be cooled rapidly from 135°F to 70°F within 2 hours and from 70°F to 41°F within 4 hours. Approved cooling methods include: 1) Placing the food in shallow pans 2) Separating the food into thinner or smaller portions. 3) Using rapid cooling equipment (Ex. blast chiller) 4) Using containers that facilitate heat transfer (ex. stainless steel) 5) Adding ice as an ingredient. 6) Using ice paddles 7) Using an ice bath and stirring frequently 8) Accordance with a HACCP plan. Cooling foods shall have enough space around the containers for cold air to circulate, be loosely covered, or uncovered and stirred as frequently needed to evenly cool.**

**[COS] Employees were directed to discontinue the use of plastic containers and cool the rice in shallow metal containers.**

### Minor Violations

No minor violations were observed during this inspection.

### Performance-Based Inspection Questions

All responses to PBI questions were satisfactory.

### Measured Observations

N/A

### Overall Comments:

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **5/15/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
