Overall Comments:

*The food cart next to the store uses the bathroom here at this facility and there is not any hot water at the restroom hand sink. According to the employees they do sometimes store food and drinks in the storage locker. The storage locker next to the building must be opened for inspection. Call for inspection after all droppings cleaned up and effective measures have been taken to eliminate the rodents from inside the facility.
A mop sink is required per the permit conditions. One was not observed during today's inspection.*

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **6/18/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
