Overall Comments:

Note: This is a second follow-up inspection to the routine inspection conducted on 2/3/2025. The facility was issued a conditional pass for blocking access to the back handwash station and for not keeping food on approved temperature. During the time of this inspection, food products on the hot-holding case were measured above 150 oF. The heater which was blocking the handwash station located back in the wash area is also removed. Therefore, the facility is issued a pass green placard. However, the above minor violations must be corrected immediately as well.

2.Since this is a second follow-up to the same violation, the owner shall be billed \$298,00 second follow-up inspection charge.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **4/9/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
