Overall Comments:

This is the first follow up inspection for the routine inspection conducted on 6/24/2025 where the facility was closed due to an active cockroach infestation. The checklist for reopening after a vermin closure and a copy of the pest control report was provided prior to the inspection.

Observations:

K23: 3 dead cockroach bodies were found behind the chest freezers and one dead cockroach was found on the floor near the office. No other evidence of a cockroach infestation was observed. Facility has deep cleaned and vermin proofed the walls of the kitchen area.

Continue to correct any and all pending violations. Facility okay to operate.

Joint inspection with Hayley M.

FACILITY RE-OPENED / PERMIT REINSTATED

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **7/9/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.

Legend:

[CA]	Corrective Action
