Overall Comments:

Follow-up for facility that was closed for rodent infestation.

Operator has completed the following:

-Pest control service and treatment was performed. Most recent pest control report dated 10/13/2026 was reviewed and states that no vermin activity was observed at the time of inspection.

- Verified that additional required items on reopening checklist have been completed: facility was cleaned and sanitized; missing ceiling tiles were replaced and points of ingress were sealed; contaminated food was discarded; storage areas were organized and unnecessary items were removed to prevent harborage.

The facility is okay to resume operations.

The following violations noted during the previous routine inspection were also verified to be in compliance:

-Hand wash sinks were unobstructed and stocked

-Quaternary ammonium test strips were available on site.

FACILITY RE-OPENED / PERMIT REINSTATED

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **10/27/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
