Overall Comments:

This is the first follow up inspection where the facility was closed during an onsite commissary evaluation for an active vermin infestation. A pest control report and checklist was provided prior to this inspection.

Observations:

K23: No evidence of rodents were observed. Gap near the ice machine and in the electronics area have been repaired. Facility has cleaned the produce rack area. A potential entry was observed inside the cabinet of the restroom sink. Staff sealed the gap at time of the inspection.

Note: Pest control report did not comment on activity of vermin. When facility operator called their pest control company they denied to connect to the technician for additional information when informed that DEH staff were present. Provide an additional pest control report by 10/21/2025.

Facility is okay to reopen. An additional follow up inspection will be conducted to verify continued compliance.

Onsite for a commissary evaluation for El Conrro Lina B #39355A4.

All services are available. Facility can also provide warewash facilities, supply food/ice, and store chemicals.

Facility will only have El Conrro Lina B #39355A4 and Super Tacos El Conrro #3 4UA6837 parking onsite. The other two mobiles are parked at Lee's Kitchen on Gish.

Commissary evaluation approved.

FACILITY RE-OPENED / PERMIT REINSTATED

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **10/31/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
