Measured Observations

Item	Location	Measurement	Comments
Ambient air temperature	Processed food storage display fridge	38.00 Fahrenheit	

Overall Comments:

Note: This is a follow-up inspection to the routine inspection that was conducted on 08/18/2026. Ambient air temperature of one of the display fridges where the Hot Dog and sliced Turkey is stored was reading above 50 oF. During today's follow-up inspection, the unit's ambient air temperature was measured below 40 oF. Therefore, the unit may be used to store potentially hazardous food products with a constant monitoring of the temperature.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **9/3/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.

Legend:

[CA]	Corrective Action
[COS]	Corrected on Site
[N]	Needs Improvement
[NA]	Not Applicable
[NO]	Not Observed
[PBI]	Performance-based Inspection
[PHF]	Potentially Hazardous Food
[PIC]	Person in Charge
[PPM]	Part per Million
[S]	Satisfactory
[SA]	Suitable Alternative
