Overall Comments:

This was a follow-up to the 1/7/25 routine inspection. The major violations from the routine inspection were observed to be corrected as follows:

- 1) No evidence of vermin was observed in the facility.*
- 2) The kitchen's handwash sink was stocked with soap and paper towels.*

*Continue to work with pest control. Observed one sticky trap was placed in the cooking area; recommend placing more sticky traps throughout the kitchen to better monitor vermin activity.
Placard was changed from yellow to green.*

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **1/27/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
