Overall Comments:

A risk factor inspection is an inspection focusing on factors known to directly contribute to causing a foodborne illness. Structural issues and good retail practices are not assessed during this inspection.

An exit interview was conducted with the operator to address the inspection findings. The OIR was issued to e-mail address that was verified onsite.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **2/22/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
