Overall Comments:

An inspection was conducted to follow up on vermin activity observed during 4/11/19 routine inspection. No evidence of vermin was observed. Facility has cleaned all affected areas but must continue to seal cracks and gaps that are observed in many areas where equipment meets walls. Facility currently receives biweekly pest control service

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **5/1/2019**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
