Overall Comments:

Note: This is a follow-up inspection to the routine inspection that was conducted on 08/11/2026. The restaurant was closed due to cockroach infestation. During today's follow-up inspection, it is observed that the owner had the pest control company conduct two intervention, multiple cleaning, and addressing the structural issues that contributed to infestation. No live or dead cockroach was observed during the time of this inspection. Therefore, the facility is open for service

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **9/1/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
