Overall Comments:

This was a follow-up inspection to the inspections conducted on 4/8/24, 4/10/24, 4/11/24, 4/12/24, and 4/13/24.

No evidence of live cockroaches were observed. Observed accumulation of food debris/grease on various walls/equipment (recommend using a flashlight to see areas in need of cleaning). Per PIC, the facility receives pest control services every 2 months. Continue cleaning and working with pest control.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **7/24/2024**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
