Measured Observations

Item	Location	Measurement	Comments
Pizza, TPHC	Serving table	120.00 Fahrenheit	
Warm water	Handwash station	110.00 Fahrenheit	

Overall Comments:

The pool shack serves pizza and ice cream. During the time of this inspection, blenders used to make milk shake were observed on the handwash station. The stand does not have a utensil wash station. Therefore, it can not make smoothies and milk shakes in the stand. Such food preparation may only be conducted on the main kitchen. The utensils may also be washed on the warewash sink located in the main kitchen.

2. Since the stand serves open potentially hazardous food products includes pizza. Therefore, there should be a food safety manager certified person. Employees working on serving food and who works for more than a month must have a food handler cards as well.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **8/11/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
