Measured Observations

Item	Location	Measurement	Comments
Water	Hand Sink	100.00 Fahrenheit	
Water	Three Compartment Sink	120.00 Fahrenheit	

Overall Comments:

Facility is not using the banquet to host events. Facility is using the banquet area as storage for dry goods (plates, napkins, soap, etc). The area is also being used to portion out PHFs such as braised duck and chicken. Individual portions of vegetables and noodles are also preportioned in this area. Per the general manager, Kai, they are using the downtown location as a central kitchen for all other locations. The bar area is not being used.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **2/4/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
