Milk	Milk dispenser	38.00 Fahrenheit	
Beef taco	Oven	168.00 Fahrenheit	

Overall Comments:

Note: 1. Food safety manager certificate: Laura Angeles - 5/17/2029

2. The school receives food products from the Alum Rock Unified School District warehouse. The school reheat and serve the food products. All leftover hot-held food not used during the shift are discarded.

3. The school has two double sinks used for dishwashing, food preparation, and handwashing. Both sinks are directly connected to sewer line. It is recommended to have a designated three compartment warewash sink to wash dishes, a preparation sink that drains into a floor sink, and a designated handwash station. Until these structures are installed, please use colanders to wash vegetable and fruits on the sinks to prevent possible backup of sewage.

4. The school serves milk from a dispenser.

5. Name of the school is Millart McCollam School.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **10/9/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
