Measured Observations

N/A

Overall Comments:

- Chlorine test strips provided
- Door gaskets have been replaced for the appetizer unit
- Dessert unit measured at 50F and currently used to store only plates with chocolate writing on it. All dessert items have been moved to the walk in cooler for holding. Unit may be repaired in the future.
- Continue to repair cold water faucet at hand sink next to rice cooker. Cold water faucet was turned on with sufficient pressure, however temperature of water was not cold. A few seconds later, very little pressure coming from the cold water faucet noted. Manager contacted maintenance service to repair faucet. Email a video of operable faucet indicating cold water is available (use a digital thermometer to measure water temperature). Email aleli.crutchfield@deh.sccgov.org

Provide wall mounted soap dispenser at hand sink next to tandoor oven.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **2/11/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
