Overall Comments:

Follow-up inspection for closure due to cockroach activity.

During time of inspection, observed facility is free of cockroach activity. No live activity or evidence of continuing harborage by the bar and kitchen areas.

- Noted an area underneath the right end of the dishwashing area where is wooden board is installed. Noted accumulation and possible cockroach droppings in the back corner underneath the area. Clean and sanitize the area, and remove the wooden board or provide finishes to the area to prevent possible harborage.

- Noted pest control report from 11/27/2024 stating activity was found in the bar area and cookline, and has been treated. Per operator, next control service to occur on Sunday, 12/01/2024.

Cracks and crevices:

- In the bar area, observed cracks and crevices underneath the bar counter, between the bar counter and the FRP panels.*
- In the kitchen area, observed cracks and crevices between wall mounted equipment including handwash stations.*
- In the kitchen area, at the cookline, observed a metal flashing installed over quarry tile cove base which appears to have a gap underneath.*
- Seal all cracks and crevices to prevent further harborage of vermin.*

Provide monitoring traps around potential areas of harborage.

FACILITY RE-OPENED / PERMIT REINSTATED

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **12/13/2024**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
