**Overall Comments:**

*Follow up inspection requested by facility management.*

*No observation of vermin observed on grocery shelving for customer use, not evidence of vermin observed in second floor storage in food area or animal food area.*

- 1. Facility has pest control come out daily to monitor traps, replace as needed and eliminate holes.*
- 2. Observed many traps throughout facility under shelving units.*
- 3. Observed many places in upper storage areas where holes have been eliminated using wood panels or foam to fill holes (foam has metal inside per pest control company). Also observed pass throughs in the bottom of shelving units to be filled to prevent vermin movement between shelving units.*
- 4. Pet foods have been placed into plastic containers to prevent rodent access.*

*Per PIC, pest control will continue to come out daily to monitor until no vermin activity is seen for several weeks.*

*Discussed name of Target Food Court with PIC, PIC will reach out corporate to determine what the name of the facility should be.*

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **10/10/2024**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
