Compliance of this violation has been verified on: 09/09/2026

Measured Observations

N/A

Overall Comments:

This is the first follow up inspection after the facility was closed due to an active rodent infestation. Completed and signed checklist for reopening, a pest control report confirming no rodent activity, and proof of corrections of structural deficiencies were provided prior to this inspection. Facility was serviced by Ratting on Rats pest control service.

Observations:

- The hole in the corner of the roof has been repaired.
- A door sweep was installed at the metal gate door near the dishwashing area.
- Rodent droppings were removed and areas cleaned.
- Permanent sleeping accommodations were removed.
- The insulation in the loft area was not covered by an approved finish. Insulation is still exposed.

Facility is okay to operate.

FACILITY RE-OPENED / PERMIT REINSTATED

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **9/23/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
