Overall Comments:

A follow-up inspection was conducted to verify violations from routine inspection conducted on 09/11/2024 are in compliance.

K45:

- 1. The FRP panel behind the 2 door upright cooler was observed install flushed with the wall. No gaps observed.*
- 2. Observed some cove base in some areas of the kitchen repaired and some areas missing the cove base tiles. Gaps were still observed between the FRP panel and the cove base tiles. Continue to install cove base tiles where they are missing. After installing the cove base tiles, ensure to fill in the gaps between the cove base tiles and the FRP panel with silicone or caulking.*

Ensure violations from routine inspection report from 09/11/2024 are in compliance by 01/11/2025.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **11/20/2024**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.

Legend:

[CA]	Corrective Action
[COS]	Corrected on Site
[N]	Needs Improvement
[NA]	Not Applicable
[NO]	Not Observed
[PBI]	Performance-based Inspection
[PHF]	Potentially Hazardous Food
