**Compliance of this violation has been verified on: 05/21/2025**

**Measured Observations**

N/A

**Overall Comments:**

*This is a second follow-up inspection to routine inspection that was conducted on 05/16/25. The store was restricted from selling any food products due to vermin infestation. A pest control company came over yesterday and conducted intervention and advised the manager to seal all the pipe extensions. The store also has cleaned the store, seal the holes, caulk cracks and crevices, and stored food products to prevent vermin hiding and breeding.*

*No rodent droppings, no live or dead cockroaches, or traces of vermin was observed during the time of this inspection. Therefore, the store is now open and allowed to sell food products. Please conduct regular cleaning, address structural deficiencies, and hire a pest control company to conduct interventions. Please complete the rodent intervention form and email me immediately.*

*Since this is a second follow-up for the same violation, the owner of the facility shall be billed \$298.00 re-inspection fee.*

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **6/4/2025**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
