Inspector Observations: New ice machine recently installed, per PIC, water heater will soon be installed. [CA] Facility must submit plans to Department Plan Check Division by 11/1/2024 for the ice machine and water heater or the equipment will be impounded.

Performance-Based Inspection Questions

All responses to PBI questions were satisfactory.

Measured Observations

Item	Location	Measurement	Comments
hot water	mop sink	72.00 Fahrenheit	

Overall Comments:

Snack Shop uses the mop sink for handwashing and cleaning the coffee pots. PIC stated that the 2 comp sink is for the automotive part of the shop. Facility must discontinue using the mop sink for hand and warewashing; mop sink is to be used for dumping mop water. Two comp sink is to be used for warewashing only. No automotive waste to be disposed of at the 2 comp sink.

Upon major remodel or change of ownership, facility will be subject to upgrading to current standards.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **11/7/2024**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
