Milk	Serving counter	41.00 Fahrenheit	

Overall Comments:

Note: This is a follow-up inspection to the routine inspection conducted on 09/17/2026. Couple of dead cockroaches were observed on the floor below the sinks. Couple of live and dead cockroaches were also observed on traps located near the back door of the janitorial room which is located next to the kitchen.

During today's follow-up inspection, I have confirmed that the school district has conducted a pest control company intervention. No live and dead cockroaches were observed in the kitchen area.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **10/6/2026**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
