Overall Comments:

Follow-up for floor drain that was previously backing up and the pipes needed repair. Verified that repairs are complete and did not observe any back up or clog after running water for 5-10mins. The drain line for the handwash sink and soda machine extends into the floor sink and discussed with manager to provide a minimum of 1 inch air gap between the end of the drain line and the rim of the floor sinks.

No further follow-up for the floor drain is required.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than **1/17/2023**. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
